

# Resources

- **Great explanation of the scientific method and project ideas.**  
<http://www.sciencebob.com/>
- **Project ideas about the environment, organized by level of difficulty.**  
<http://www.sciencebuddies.org/science-fair-projects/Intro-Environmental-Science.shtml>
- **Great site about environmental science and project ideas.**  
<http://www.sciencefairadventure.com/EnvironmentalScience.aspx>
- **Great ideas and explanations.**  
<http://school.discoveryeducation.com/sciencefaircentral/Getting-Started/idea-finder.html>
- **Plug in your criteria.**  
<http://www.all-science-fair-projects.com/>  
<http://www.sciencemadesimple.com/>
- **Search the internet re: the topic of your choice.**  
Google, Bing, other search engines pull great sites for “science projects about ...”
- **JSIS science fair web-site (under Student Activities).**  
<http://stanfordes.seattleschools.org/>
- **Look through our own JSIS or your local Library for books about science and science projects.**
- **Visit your local bookstore.** There is always a science for kids section.
